Falls City C.C. is an imaginative, flowing layout. It is unusual because it is a nine hole course with distinctly separate sets of tees that allow you to play 18 holes without feeling you've played the same nine twice. Four of the nine holes have a different par the second time around. The course is characterized by mostly level fairways that have a variety of trees scattered between them and by small greens that are quick. The second hole is the number one handicap hole. It is long and uphill. It has a tree-choked creek to the left side, and ponds to the right side of a fairway that leads to a small green.
